INTRODUCTION

This report presents the Performance Model for **IT Product Manager** by indicating the desired range of scores on a variety of scales. The ideal candidate would score within each of the highlighted ranges. Further, this report will provide insight into the meaning of each scale and will help you understand the ideal employee for the role.

What's in this report?

<p>PERFORMANCE MODEL Range of scores typical for success in the position</p>	<p>DEFINITIONS Each of the styles and traits will be defined</p>	<p>IDEAL CANDIDATE A statement describing the ideal candidate for this position will appear for each style and trait</p>

What is a Performance Model?

The Performance Model is a tool used to determine the fit between a candidate and a given position. The Model takes into account the abilities and perspectives that correspond to a good job fit and provides the ranges of various measures that are predictive of success in the position. An individual's assessment results can then be compared to the Model to gauge the fit between the person and the position.

The Model consists of a range of scores for the Thinking Style and Behavioral Traits scales where most of the successful performers in this position tend to fall. The farther outside this range (Performance Model) an individual's scores fall, the less likely the individual will fit the role.

Interests for the Performance Model are based on the interests identified by those most successful in the position. The greater the degree of alignment between the individual's top three interests and the top three in the Performance Model, the more likely he or she is to find the job activities motivating and enjoyable, which could potentially keep him or her more engaged in the position.

Performance Model

For IT Product Manager

THINKING STYLE

A primary resource for learning is the ability to process information from one's environment. In most training situations, this information is in the form of either words or numbers. Each of the following scales measures an aspect of understanding words or numbers and using each as part of the reasoning process. They form the foundation for problem solving, communication, interaction, and learning skills used on the job.

Composite Score

A reflection of overall learning, reasoning, and problem-solving potential

Ideal Candidate: Understands complex concepts or information without difficulty.

Verbal Skill

A measure of vocabulary

Ideal Candidate: Can process fairly complex language and has a vocabulary in the above average range.

Verbal Reasoning

Using words for reasoning and problem solving

Ideal Candidate: Able to easily analyze complex verbal information and recognize unspoken inferences.

Numerical Ability

A measure of numerical calculation ability

Ideal Candidate: Performs intricate calculations easily and is comfortable communicating complex data to others.

Numeric Reasoning

Using numbers as a basis in reasoning and problem solving

Ideal Candidate: Very capable of analyzing even the most complex numerical data and arriving at accurate and sophisticated conclusions as a result.

BEHAVIORAL TRAITS

Behavioral Traits help define who we are by influencing our behaviors. As our strengths and the combinations of our behavioral traits vary, so do our behaviors. The following are some of the traits that have been shown to be important in work settings.

Pace

Overall rate of task completion

Ideal Candidate: Responds well to time constraints and generally works at a brisk pace.

Assertiveness

Expression of opinions and need for control

Ideal Candidate: Tends to be very direct and self-assured and is highly motivated to influence others.

Sociability

Desire for interaction with others

Ideal Candidate: Generally outgoing and capable of working effectively in a team environment.

Conformity

Attitude on policies and supervision

Ideal Candidate: Effective without direct management, yet welcomes some structure and supervision as needed.

Outlook

Anticipation of outcomes and motives

Ideal Candidate: Has a bit of a skeptical side and will withhold buy-in until given the chance to scrutinize information.

Decisiveness

Use of speed and caution to make decisions

Ideal Candidate: Balances timeliness and deliberation, but is comfortable making quick decisions when necessary.

Accommodation

Inclination to tend to others' needs and ideas

Ideal Candidate: Responds appropriately to the needs of others but strongly defends his or her opinions.

Independence

Level of preference for instruction and guidance

Ideal Candidate: Moderately independent yet can accept necessary guidance and instruction.

Judgment

Basis for forming opinions and making decisions

Ideal Candidate: Balances objective information and instincts to make decisions.

INTERESTS

The Interests section may indicate an individual's motivation and potential satisfaction with various positions. The top three interests for this model, based on the interests of people who have been most successful in this position, are listed below in descending order.

1 - ENTERPRISING

An Enterprising interest suggests the enjoyment of leadership, presenting ideas, and persuading others. Individuals with this interest may desire responsibility and exercise initiative, ambition, and resourcefulness.

2 - TECHNICAL

A Technical interest suggests the enjoyment of learning technical material, interpreting complex information, and solving abstract problems. Individuals with this interest may enjoy working with numbers, data, and/or computer programs.

3 - FINANCIAL/ADMIN

A Financial/Admin interest suggests the enjoyment of working with numbers, organizing information, and office routines such as record-keeping and completing paperwork. It could indicate an eye for detail and a desire for accuracy.

Ideal Candidate: Motivated by business management, organization, and the application of technologies and ideas. High-tech positions may be most interesting to this individual.
